

NEW GENERATION

of manually operated Boat Milling Machines for repair of Resin Pockets and Knot Drillings

- Easy and safe to operate
- Flexible adjustments
- PLC control
- CE marked
- Dan-List working units
- Marking in longitudinal direction can be made with laser

1. Place the work piece in position manually.
2. Rapid speed until start of working cycle.
3. Activate the working cycle via the foot pedal.
4. When the work pieces are finished release the foot pedal, and the units return to starting position immediately.
